PROJECTS

Mall of Turkeya

- A **user-friendly e-commerce app** for seamless online shopping.
- Enables users to browse, search, and purchase products effortlessly.
- Features **secure payment integration** for a smooth checkout experience.
- Supports **multi-category product listings** for diverse shopping needs.
- Provides **order tracking & real-time notifications** for user convenience.
- Designed with an **intuitive UI/UX** for a hassle-free shopping experience.

Learning Management System

- Supports **course management** with structured content for different semesters.
- Enables **assignment submission & tracking** for students and teachers.
- Features a **broadcast channel** for teachers to make important announcements.

- Provides **1-on-1 messaging** for seamless student-teacher communication.
- Includes **group collaboration tools** for class discussions and teamwork.
- Designed with a **responsive UI** for cross-platform accessibility.

Attendance App

- **Attendance tracking** system for employees.
- **Three types of admins** with different access levels.
- **Admins can edit attendance** records as needed.
- **Project-based workforce planning** – allows users to determine required employees for a task (e.g., road construction).
- **Centralized data visibility** – all admins can access real-time attendance records.

Student Report Application

- **Stores and manages student records** efficiently.
- **Parents can track student progress** through real-time updates.
- **Fee structure visibility** for easy access to payment details.
- **Attendance & leave tracking** for parents to monitor student presence.
